
Solar panels on rooftops in Mumbai India

Are rooftop solar installations a good investment in India?

Rooftop solar tariff rates are 17 per cent and 27 per cent lower than industrial and commercial tariff rates, respectively. Rooftop solar installations are also achieving grid parity in many Indian residential sectors. Rooftop solar installations can even help building owners save money on their electricity bills.

Who pays for rooftop solar installation in India?

According to the Ministry of New and Renewable Energy, the government pays the installer 30% of the installation cost as a subsidy. The Indian government is aiming for a total capacity of 40 GW from rooftop solar (RTS) projects by 2022, 4 GW by grid-tied rooftop solar systems.

Does India pay for solar panels?

To encourage the use of solar energy, the Indian government provides subsidies to those who install rooftop solar panels in-home or commercial properties. According to the Ministry of New and Renewable Energy, the government pays the installer 30% of the installation cost as a subsidy.

Why is India's rooftop solar market growing?

India rooftop solar market is poised for remarkable expansion, reflecting a CAGR of 16.2%. This expansion is being driven by increasing adoption of smart solar modules, hybrid energy setups, and resilient off-grid systems, especially across commercial and industrial verticals.
