# Solar power station for sale in Kazakhstan

Where is Kazakhstan's new solar power plant located?

A few months later, the EBRD loaned another \$42.5 million toward a \$75 million 63 MW solar photovoltaic power plant that Risen is building in Chulakkurgan, north of Shymkent. China, which now produces 70 percent of the world's solar panels, is well represented in Kazakhstan's new renewable projects, but it is not the only player.

How many solar power plants are there in Kazakhstan?

Solar Power: The potential of solar energy in Kazakhstan is estimated at 2.5 billion kWh per year. Solar energy can be widely used in two-thirds of Kazakhstan's territory. The government aimed to put 28 solar power plants into operation by the end of 2021, and met this goal, with currently 51 solar power plants in operation.

What is Kazakhstan's largest solar project?

Kazakhstan's largest solar project - a 100 MW field in Saran, Karaganda Province - was opened last year by a German company, also with EBRD backing. Russian engineers doubled capacity at the EBRD-backed Burnoye plant in Zhambyl in 2018.

Is Kazakhstan a good place to invest in solar power?

Kazakhstan has remarkable solar potential with a very well-designed auction system, a clear renewable capacity addition schedule, and a solid decarbonisation target. The country is now also including storage systems as part of its public procurement strategy in a move that will ease further integration of renewables into the grid.

The power station is located in Kapchagay, Kazakhstan, which is the largest single photovoltaic power plant in the region. With the model of "100% Made in China, 100% ...

This report builds on the first edition of solar investment opportunities in Kazakhstan. This update contains the latest economic and political advancements in the ...

The first auction will be held on April 15, 2025, for the construction of a wind power plant with an energy storage system for the northern zone of the United Power Grid of ...

Of the total global Solar PV capacity, 0.08% is in Kazakhstan. Listed below are the five largest upcoming Solar PV power plants by capacity in Kazakhstan, according to ...

Over 55 charts, tables and maps Overview of announced auction (tender) procedure for renewable power plants in Kazakhstan Overview of Kazakhstan photovoltaic ...

---

The facility benefits from a Government Power Purchase Agreement (PPA), indicating a stable revenue stream. Kazakhstan is actively developing its renewable energy sector, with abundant ...

Explore the 545 MW Altyn Dala Solar Power Station, a key project advancing Kazakhstan's renewable energy expansion and solar capacity goals.

Kazakhstan, located at the heart of the Eurasian continent, is the world's largest landlocked country. In September 2019, China and Kazakhstan formed a permanent, ...

QAZAQ GREEN. On June 18, 2025, an auction was held to select renewable energy projects for the construction of a solar power plant (SPP) in the Southern Zone of Kazakhstan's Unified ...

Recently, Energy China reached an important cooperation agreement with the government of Kazakhstan, officially signing an investment and power purchase agreement. ...
