# Swedish telecommunications operator installs 5g base station

Where is the 6g network being installed in Sweden?

The 6G network is currently being installed in the underground lab at Luleå University of Technology. Are you looking for information on 5G regulation and law in Sweden? This CMS Expert Guide provides you with everything you need to know.

How many mobile base stations will be equipped with 4G & 5G?

During 2025, approximately 50 mobile base stations, both new and existing, will be equipped with 4G and 5G networks. By 2030, Telia is aiming for uninterrupted connectivity along all railway routes in Sweden.

Does Sweden have 5G?

5G deployment is underway in Sweden. In October 2023, 92% of the population had coverage from 5G networks. The government has not imposed any requirements on operators regarding the deployment of 5G, but there are coverage requirements in various frequency bands in order to improve mobile coverage in Sweden.

Where are Northstar 5G networks being built?

Dedicated Northstar 5G networks from Ericsson with key technologies are now being established at four strategic locations in Sweden. With the help of EU funding, RISE and Telia are building advanced 5G networks for pioneering large-scale projects for digital innovation in important areas of society such as transport and logistics and agriculture.

Nevertheless, that is precisely what Swedish incumbent Telia has done, in partnership with a sizeable roster of suppliers: Ericsson, Volvo, Mittuniversitetet (Mid Sweden ...
