
The brand with the largest solar panel size

Who is the largest solar panel manufacturer in the world?

JinkoSolar is the largest solar panel manufacturer in the world. The Shanghai-based company shipped 47.2GWp of solar panels in 2024's first six months, more than any other firm. JinkoSolar has 14 factories in China, Malaysia, Vietnam, and the US, and 57,000 employees, with 1,500 working in the firm's eight research and development centres.

Who is the best solar panel manufacturer?

The top global solar panel manufacturers, based on how many they ship, include JinkoSolar, JA Solar, Trina Solar, and LONGi. However, the best manufacturer for your solar project will depend more on whether their products suit your budget, needs, and lifestyle.

Which country produces the most solar panels in the world?

The Asian industry continues to dominate the global ranking of solar panel manufacturers. Chinese companies hold eight of the top ten spots, including the entire podium. Who are the top 10 photovoltaic module producers in the world?

What percentage of solar panels are made in China?

China produces 86% of the world's solar panels each year, according to Germany's Fraunhofer Institute for Solar Energy Systems. In comparison, Europe and North America each produce around 2%. It therefore makes sense that eight of the world's nine largest solar manufacturers are based in China.

Get access to our exclusive list of the most relevant solar panel manufacturers worldwide. Including information like GW capacity and contact details.

The 10 Largest Solar Panel Companies in the World, and What They Do Key Points SMA is a pioneer in the solar sector based in Germany and provides energy storage solutions ...

We've focused on the titans of the industry- the largest solar companies worldwide - and explored their crucial role in shaping the future of energy.

JinkoSolar stands as the world's largest solar panel manufacturer, shipping 47.2GW in the first half of 2024 alone. The company became the first solar

Top 10 Solar Panel Manufacturers by Global Shipments (Q1-Q3 2025) During the first three quarters of 2025, the photovoltaic industry has reached a new balance among the

...

The growing interest in sustainable energy has driven rapid advancements in solar technology, offering a wide variety of solar panels. ...

China produces 86% of the world's solar panels each year, according to Germany's Fraunhofer Institute for Solar Energy Systems. In comparison, Europe and North ...

The 20 Largest Solar Power Plants in the World Solar power is rapidly becoming a star in the field of renewable energy around the world. In the ...

Global photovoltaic industry, 2024 ranking Who are the top 10 photovoltaic module producers in the world? Each year, Wood Mackenzie answers this question with an analysis of ...

The largest solar panels are increasingly favored in utility-scale solar farms due to their ability to reduce installation time, labor costs, and land use. In 2026, over 65% of new ...
