
Uzbekistan power frequency isolation 15kw inverter

What is a 15kW sine pure wave power inverter?

15kW sine pure wave power inverter is a 3 phase off grid inverter with no battery for the solar system, converts the DC power to AC power, it is useful for areas without electricity, vehicles, ships, solar energy and other renewable energy systems, etc. Two kinds of start modes: Step-down voltage start and variable frequency start.

What is a 15kW variable frequency drive inverter?

15kw variable frequency drive inverter, 20 hp 3 phase inverter with RS485 communication mode. Comes with cooling fans and IP 20 strong impact resistance, and the 3 phase variable frequency inverter works at (-10%, 40%). An Interior PID controller is convenient for making a closed-loop system.

What is a multiple-function keyboard of a frequency inverter?

The multiple-function keyboard of frequency inverters control the operation of the 3 phase variable frequency drive inverter, such as start, stop, and acceleration.

How to control a variable frequency drive inverter?

The host computer (PC/PLC) can monitor the variable frequency inverter in the control system and realize complex control functions such as remote control and fine adjustment. The remote control panel can be connected to the variable frequency drive inverter through the RS485 interface.
