
Victoria Energy Storage Equipment Production

How many energy storage projects are there in Victoria?

773 MW of commissioned energy storage capacity and 21 utility-scale storage projects with a combined capacity of 2,326 MW under construction or undergoing commissioning at 30 June 2025. Figure 4: Emissions from electricity generation in Victoria, 2013/14 to 2024/25

Will Trina Solar build a battery energy storage system in Australia?

Chinese PV module manufacturer Trina Solar has received the green light from the Victoria government in Australia to build a 500MW/1,000MWh battery energy storage system (BESS). Trina Solar will build the Kiewa Valley BESS in the northeastern part of the Australian state, in the Murray-Darling basin, to the east of Melbourne, the state capital.

Why did Trina Solar invest in Victoria?

Trina Solar's investment in Victoria represents part of its larger goal to achieve 6.5GW of installed renewable energy capacity across Australia. Vertically integrated solar PV manufacturer Trina Solar acts as developer on some projects across solar and energy storage, its BESS technology is manufactured and integrated by its Trina Storage arm.

What is the Wooreen energy storage system?

The utility-scale battery storage facility will add reliability to Victoria's energy supply while supporting the growth of renewable energy across the state. EnergyAustralia achieved financial close for the Wooreen Energy Storage System on 20th February 2025. Construction will now commence on the four-hour, 350 MW Wooreen energy storage system.

Melbourne will be home to one of Australia's largest grid-scale BESS (battery energy storage systems) as part of a new renewable energy hub in the city's west. Delivered ...

Australia activates 1.6 GWh energy storage facility with 444 Tesla Megapacks The Melbourne Renewable Energy Hub can power up to 200,000 homes during evening peak ...

Victoria, Australia, is now home to a groundbreaking energy storage development that is set to redefine the landscape of renewable energy. The installation of a massive \$450 ...

The firm capacity delivered by Victoria's energy storage targets will provide reliable, affordable and clean energy as Victoria's ageing and increasingly unreliable coal ...

Latrobe Valley, Victoria - EnergyAustralia has today marked a major milestone with the official turning of the sod for the 350 MW Wooreen Energy Storage System (WESS) in ...

The Victoria government in Australia has approved a 300MW/1,200MWh battery energy storage system (BESS) in Gippsland and a 332MW solar PV power plant in the state's ...

Victoria's Development Facilitation Program has fast tracked 19 renewable energy projects worth more than \$5 billion. Collectively, these projects could power around 570,000 ...

One of Australia's biggest battery energy storage projects has powered up with renewables developer Equis Australia confirming that the 600 MW / 1.6 GWh Melbourne ...

China's Trina Solar has received the green light to build a 500MW/1,000MWh battery energy storage system (BESS) in Victoria, Australia.

The Melbourne Renewable Energy Hub (MREH) is now operational with 600MW/1,600MWh capacity, developed by Singapore-based Equis Development and ...
