
Vietnam new energy storage foreign trade orders

What does Vietnam's Solar Policy update mean for energy storage?

Vietnam's solar policy update highlights growing role of energy storage. (Photo: iStock)
Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, incorporating energy storage systems.

Does Vietnam have new feed-in tariffs for solar power?

April 2025 | Southeast Asia Impact Alliance Vietnam is taking another step toward modernizing its renewable energy sector by unveiling updated feed-in tariffs (FiTs) for solar power, with a notable emphasis on encouraging battery energy storage systems (BESS).

Could Vietnam replace fixed feed-in tariffs with standardized auctions?

As global costs for solar, wind, and battery storage systems fall, Vietnam could replace fixed feed-in tariffs (FiTs) with standardized competitive auctions to procure clean energy at the lowest cost.

Is Vietnam a good market for energy storage solutions?

Vietnam represents a promising market for German and European small and medium-sized enterprises (SMEs) specialising in energy storage solutions, thanks to their technical expertise and established reputation in RE technologies.

? Policy-Driven Revolution: Mandatory Storage & Market Liberalization Mandatory 15% Energy Storage Allocation Vietnam's Ministry of Industry and Trade mandates 15% ...

As global costs for solar, wind, and battery storage systems fall, Vietnam could replace fixed feed-in tariffs (FiTs) with standardized competitive auctions to procure clean ...

Vietnam represents a promising market for German and European small and medium-sized enterprises (SMEs) specialising in energy storage solutions, thanks to their ...

From June 24 to 27, 2025, the China Energy Storage Alliance (CNESA) organized a delegation to Vietnam for an in-depth market study and exchange. The delegation focused on the current ...

Vietnam's Ministry of Industry and Trade (MOIT) has published the new feed-in tariffs for utility-scale solar plants. For projects without battery storage, the tariff will be VND ...

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in

tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, ...

These factors create favorable conditions for the initiation and scaling of Vietnam's domestic electrochemical energy storage market. Against this background, this article ...

Vietnam's Ministry of Industry and Trade (MoIT) has published the new feed-in tariffs for utility-scale solar battery storage and floating PV system. For projects without battery ...

To qualify for BESS-specific tariffs, projects must meet technical thresholds such as a storage capacity equal to at least 10% of the plant's capacity and a minimum 2-hour ...

Vietnam's Ministry of Industry and Trade (MoIT) has published the new feed-in tariffs for utility-scale solar plants. For projects without ...
