
What are the mobile energy storage charging equipment in Astana

Will Astana Motors launch electric charging stations in 2024?

Astana Motors plans to launch its electric charging stations in Almaty, Astana and Shymkent in 2024. The company plans to attract small- and medium-size enterprises to further develop the electric charging network throughout Kazakhstan.

Who is Astana Motors?

"As an authorized distributor of electric equipment and operator of the electric charging network, Astana Motors is open to cooperation with domestic entrepreneurs interested in developing in this direction. We are ready to share TELD's advanced technologies and our own business expertise," Beknur Nesipbaev, CEO of Astana Motors, notes.

Why should TELD partner with Astana Motors?

TELD will supply its partner Astana Motors with high-tech equipment for an electric charging network in accordance with quality standards, transfer expertise, and also help strengthen relations and expand areas of cooperation between the countries," says Deputy General Director of TELD.

How many EV charging stations are there in China?

Ms. Tian Hua notes that today TELD has a market share of 33% in China, covering 360 cities, where more than 20,000 EV charging stations and 450,000 charging terminals are available.
