# Wholesale bess storage system in Poland

Is Poland moving towards battery energy storage systems (Bess)?

As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage systems (BESS) beside the fact that the de-rating factor has been significantly decreased.

Where are Bess projects located in Poland?

The geographical distribution of BESS projects in Poland is concentrated in regions with high renewable energy potential, such as Lower Silesian, Masovian, and Pomeranian. These areas are pivotal for Poland's energy transition, offering the infrastructure necessary for significant BESS installations.

Why is a massive energy storage facility being built in Poland?

Poland is witnessing substantial investments in BESS, driven by the need to accommodate the increasing share of renewable energy in the national grid. The strategic partnership between LG Energy Solution and Polska Grupa Energetyczna for a massive energy storage facility exemplifies this trend.

Does Poland have a business case for ancillary services?

With its ancillary services market having only recently opened to battery energy storage systems (BESS), Poland presents a compelling business case for developers- finds advisory Clean Horizon.
